

🎓 ATTENTION: Every Class 10 CBSE Student & Parent 🎓

More than 24 lakh students appear every single year. Sadly, 74% of them report high academic stress and 66% feel heavy pressure from expectations. Statistics show only 1.92% score above 95%, yet quality coaching continues to cost anywhere from ₹3,000 to ₹15,000 every month. 💰

Yet there has NEVER been one single free platform with everything a student needs.

The truth is that students are not failing because they aren't smart. They struggle because the system never gave them the right tools. Most students deal with:

- X Notes scattered across books, WhatsApp and 10 different websites
- X YouTube open to study — 2 hours gone, nothing learned
- X No idea how much syllabus is left
- X Studying alone with zero motivation
- X Panic the night before every exam
- X Good apps cost money. Free ones have no structure.

Presenting the SOLUTION:

AcademiX is a free, all-in-one web Student - Led Platform built specifically for CBSE Class 10 students. Everything a student needs to crack their class 10th exams — in one cheerful, organized place.

The Opportunity

EdTech market 2024 → \$7.5 Billion Expected

2030 → \$30 Billion

India has over 2.4 million Class 10 students appearing for CBSE board exams every year.

Gap in market → There is no dedicated, free, all-in-one study platform built for this exact audience. AcademiX fills that gap directly.

We are looking for partners and early adopters who believe every student deserves a smarter way to prepare. Join us in making Class 10th preparation stress-free, organized and accessible for every student in India.

AcademiX — Study Smarter. Score Higher. 🎓

Future Plans:
Adding Class 9th too.
